L168 bred specimens

AQUARIUM GLASER^{GmbH}

Ornamental Fish Import/ Export Wholesale Rare Fish Specialist

Once more we received very pretty bred L168 from our proofed breeder. Currently the fish are 4-5 cm long. The scientific name of the species is *Zonancistrus brachyurus*. The wrong name "Peckoltia pulcher", however, still often appears on the stocklists.

For our customers: the animals have code 26480-L168x-1 on our stocklist. Please note that we exclusively supply the wholesale trade. Available in limited numbers only!
