

# Ornamental Fish from all over the world

## *Pelvicachromis silviae*

Finally we were able once more to import this pretty dwarf cichlid (males become 7-8 cm long, females stay 15-25% smaller) from Nigeria. Before its official description under the name of *P. silviae* the species has been known by hobbyists for about 40 years as *Pelvicachromis* sp. aff. *subocellatus*.

For our customers: the fish have code 560513 on our stocklist. Please note that we exclusively supply the wholesale trade.
