

Ornamental Fish from all over the world

Boraras merah

Currently we have very nice Boraras merah in stock. The species is a very close relative to *B. brigittae* and at least in some populations the females of *B. merah* look like *B. brigittae* and only the males have a typical *B. merah* pattern (see also http://www.aquariumglaser.de/en/boraras-brigittae--boraras-merah_de_1107.html). In the population we could import now, however, both sexes seem to be represented and both look like *B. merah*.

For our customers: the animals have code 452752 on our stocklist. Please note that we exclusively supply the wholesale trade.
