

Ornamental Fish from all over the world

Red Back Angels

We received Red Back Angels from a German breeder, which already have currently - at a size of only 3-4 cm - a breathtaking intense coloration. Red Back Angels do exist also in the wild, several populations are known. So this fish is not an artificial sport, but a real wild form.

For our customers: the animals have code 699662 on our stocklist. Please note that we exclusively supply the wholesale trade.

Crenicichla sp. Inirida III (= Fire Spot)

Once more we were able to import a small number of this extraordinary beautiful pike cichlid. Many specimens are obviously fully grown already, the fish have sizes of 8 - 15 cm.

For our customers: the fish have code 673583 (8-10 cm), 673584 (10-12 cm), and 673585 (12-15 cm). Please note that we exclusively supply the wholesale trade.

Crenicichla sp. Inirida IV

AQUARIUM GLASER GmbH

Ornamental Fish Import/ Export Wholesale Rare Fish Specialist

female

male

For the first time ever we were able now to import another species of pike cichlid from the surroundings of Puerto Inirida in Venezuela. This species is illustrated and described in the German book "Die Buntbarsche Amerikas Bd. 3" by Rainer Stawikowski and Uwe Werner as *Crenichla* sp. Inirida IV. This is also a very beautiful fish. Males have a double row of light spots on the flanks which are missing in females. Our specimens are 8-12 cm long and sexually fully differentiated.

male

female

For our customers: the fish have code 673594 on our stocklist. Please note that we exclusively supply the wholesale trade.

Of both species are only very limited numbers available!
