

# Ornamental Fish from all over the world

*Semaprochilodus laticeps*

We received wonderful *Semaprochilodus* from Venezuela. Sadly there was a lot of confusion regarding the correct identification of species of *Semaprochilodus* in the aquarium literature and in the internet. So *S. laticeps* - this determination is without doubts correct - is illustrated most often under the names of *S. taeniurus* (this is a different species from Brazil) or *S. theraponura* (this species is currently regarded to be a synonym of *S. insignis* and originates from Peru). We have listed the species under the name of *S. taeniurus* for that reasons.

For our customers: the animals have code 290508 on our stocklist. Please note that we exclusively supply the wholesale trade.
