

Ornamental Fish from all over the world

Pseudogastromyzon sp. Red Fin

Hillstream loaches have become more and more popular in the past years and some of the smaller species are imported on a regular basis now. Currently we received a new species via Hongkong. The very pretty fish attains a length of 4.5 - 5 cm. The males are already mature, they can be recognized by the "pimples" on the nose. Females stay smaller and lack the pimples.

AQUARIUM GLASER GmbH

Ornamental Fish Import/ Export Wholesale Rare Fish Specialist

male

female

We have not been able to determine the species without doubts yet. There is some similarity with *Pseudogastromyzon maculatus* (which is often regarded to be a synonym of *P. myersi*), but to be on the safe side we decided to name the fish provisionally *Pseudogastromyzon* sp. Red Fin in reference to the beautiful red-orange caudal fin that is presented by both sexes.

For our customers: the fish have code 445833 on our stocklist. Please note that we exclusively supply the wholesale trade.
